Hi Norman -

Yes, the excerpts from Parcel G are attached. I also copied the relevant excerpts from the Time Critical Removal Action Memo, though the memo itself isn't long, so I attached it here as well.

Brianna,

Greetings... Hope you're well.

I'm following up in response to something that Alana Lee said on Wednesday about a collection of excerpts or citations or references, etc., that had been compiled or collected -- which she characterized as more or less capturing all the relevant or key provisions bearing upon our assessment of what constitutes the existing framework for the radiological response action work at Hunters Point.

Is this material or list or [?] something that you can share with me? If so, please shoot it over to me. It might be helpful if we are considering the same information.

Regards,
Marvin Norman
